HI THERE!

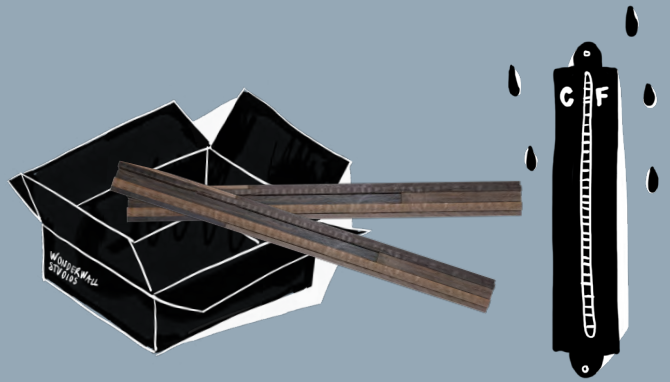

ARE YOU READY TO CREATE YOUR WONDERWALL, MADE OF 100% SALVAGED WOODS?

IT'S JUST AS EASY AS IT LOOKS.

JUST PUT ON SOME MUSIC AND LET'S GET STARTED ...

FOR BEST RESULT, UNPACK THE PANELS AND LET THEM ACCLIMATIZE IN THEIR HAPPY NEW HOME FOR 1 OR 2 WEEKS.

FIRST OF ALL..

PAINT THE ENTIRE WALL BLACK WITH A PRIMER PAINT.

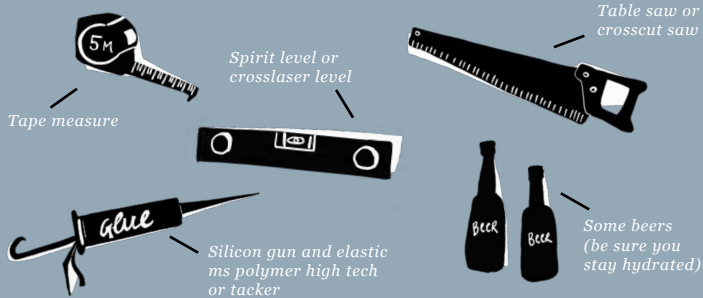

*Why do you ask?  
Nobody is perfect, there can always be little imperfections.  
We work with a natural material.*

IN A RUSH?

PAINT OR SPRAY THE OUTLINES BETWEEN 2 PANELS

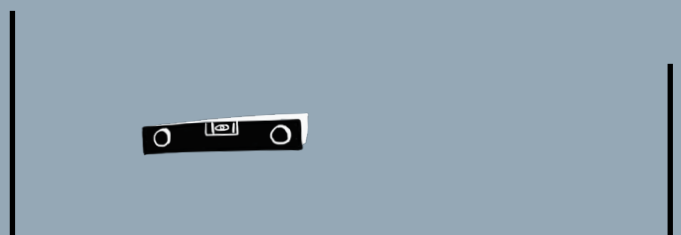

ENOUGH SMALL TALK.. TIME TO COLLECT YOUR MOUNTING TOOLS AND GET BUSY.

STEP 1

FIRST STEP IS KEY!

BEFORE PLACING YOUR FIRST PANEL, IT'S ESSENTIAL THAT YOU MAKE SURE THE WALL 100% STRAIGHT.

STEP 2

PICK UP THE FIRST PANEL.

STEP 3

UNTIL YOU HAVE REACHED THE END.

## GOOD TO KNOW

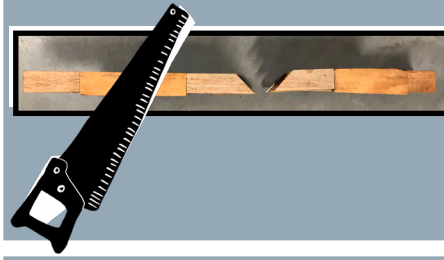

HERE ARE TWO OF OUR MOST IMPORTANT INSIDE TRICKS.

## CORNER

ALL OUR PANELS ARE SOLID THEREFORE THEY CAN EASILY BE ADJUSTED TO MAKE A CORNER SOLUTION.

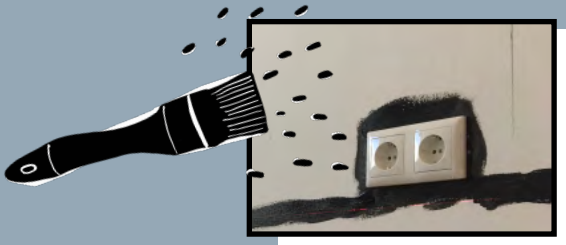

TAKE ONE PANEL AND CUT TWO 45 DEGREE ANGLES TO GO AROUND THE CORNER.

## LIGHT SWITCHES & POWER SOCKETS

AS OUR PANELS ARE SOLID, YOU CAN WORK AROUND A LIGHT SWITCH OR POWER SOCKET.

MAKE SURE YOU PAINT THE WALL AROUND THE LIGHT SWITCH OR POWER SOCKET BLACK!

# WONDERWALLSTUDIOS

Wonderwall Studios designs and produces wood panels for walls and other surfaces. Since our start back in 2010 we have always gone the extra mile.

For our clients of course, but also to find the best and most beautiful reclaimed woods.

We love working with reclaimed woods, so much so that if the wood is not reclaimed, we won't touch it.

This sustainability principle forms not only the foundation of our business; it is its beating heart. We're proud of this but also see it as something that should come naturally to any people working in our line of business.
